TOWERDRAW A-617

TOWERDRAW A-617 is a disappearing (evaporating) metalforming compound. **TOWERDRAW A-617** provides extreme pressure lubrication, flushing and cooling for metalforming operations such as stamping, drawing and roll forming. Parts made with **TOWERDRAW A-617** will have a very light residue but are typically clean enough for secondary operations or final assembly.

USAGE

TOWERDRAW A-617 should be use as received and can be applied by drip, roller coater or airless spray systems. It is suitable for use on stainless steel, ferrous and non-ferrous metals, painted and vinyl clad materials.

TECHNICAL SUPPORT

TOWER wants to assist you in evaluation and selection of suitable products. We urge you to take advantage of this service. This information sheet and **TOWER's** assistance, however, are not a substitute for your own testing and evaluation.
