

## **TOWERKLENE 47-ALT**

**TOWERKLENE 47-ALT** is a concentrated blend of alkalinity builders, water conditioners, buffering agents and low foaming wetting agents, designed for use in soak or recirculating spray wash applications. **TOWERKLENE 47-ALT** is low foaming and safe for use on ferrous metals. **TOWERKLENE 47-ALT** will provide excellent corrosion protection on ferrous parts after cleaning.

### **USAGE**

**TOWERKLENE 47-ALT** should be used in applications where no rinsing is required for maximum corrosion inhibition. A starting concentration of 3 to 15% by volume and temperature range of 80 to 140°F is recommended.

### **PHYSICAL CHARACTERISTICS**

Appearance	Clear Liquid
Odor	Bland
pH (1% solution)	Typically 11-12
Refractive Index (5% solution)	Approximately 1.0
