Metal Working

Crown Technology proportioners are used extensively in the metal working industry to mix water-soluble coolants, lubricants and synthetic press working fluids. Common models and uses are shown below. Please call our customer service for a recommendation.

Model	Maximum			Minimum		Max	Common Industry Use
	Size	Ratio	%	Ratio	%	GPM	
6080-A-V	8 oz.	1:16	5.80%	1:125	0.70%	7.0	Cutting & Grinding Fluids
6120-A-V	12 oz.	1:10	9.10%	1:120	1.00%	7.0	Light Machining Fluids
6180-A-V	18 oz.	1:7	12.30%	1:56	2.50%	7.0	Heavy Machining Fluids
6470-A-V	47 oz.	1:3	26.90%	1:24	5.00%	9.5	
6850-A-V	85 oz.	1:1.5	40.00%	1:10	10.00%	12.0	Synthetic Drawing Compounds
